The business: overview of our franchise operation

FRANCHISEE OPERATION

Managed by Company	Managed by Franchisee
Supply Chain	Outlet Operation
Sales Channel/Portal	Team
Revenue Flow & Collection	Local Marketing
Central Marketing	Maintenance
Product/Menu & Offerings	Compliance
Training & Control	

Tier 2 and 3 markets are waiting for us

India is waiting

Pioneering Progress: Harnessing the Power of Tier 2 and Tier 3 Market Opportunities due to absence of a national chain.

The international chains cost too much and hence can't enter most of these markets.

Burger Singh has a much better flavour profile for Central India. Most affordable burger option available.

Have a shop or property? This is why you should convert.

- Generates higher revenue than renting out property
- Having a recognised brand drives footfall and increases property value
- No rental pressure

FOCO AVAILABLE

No place? No problem! We are here to assist.

Location is everything! We put in a lot of effort to find the perfect location and maximise the chances of a super successful outlet. Three ways to find ideal locations:

Your suggested location

Our team performs technical, feasibility, and physical checks (if necessary). Ensures the location's potential for sales and growth

Our pre-approved location hot list

Regularly updated with promising locations. Join our Hot Location Broadcast list at burgersinghonline.com/franchise for updates.

Location Assistance

If the first two options don't work, you can sign up for Burger Singh's Location Assistance. Our on-ground team will physically visit your area and find locations for you. We will even help you negotiate the lease agreement with the best terms to help your business in the future.

Ok, I love it! What about the Outlet setup?

- ▮ Once the location has been approved, our architect will **visit the store and map out the outlet** based on the Burger Singh design template
- ▮ **Contractor:** You can either work with our list of suggested contractors or bring your own contractor with past experience building QSR outlets
- ▮ **Project monitoring:** We will assist you at every stage with the project monitoring, from BOQ negotiation, to project monitoring to final sign off
- ▮ We have an **extensive set of guidelines** to protect your interests as a franchise owner

What kind of ongoing support is needed to run this ship?

- ▮ **One Point of Contact** to assist with all your Burger Singh related issues
- ▮ **Monthly P&L calls with our business experts** to review your business and optimise your costs for profitability
- ▮ **Third Party Aggregator Support**
Zomato/Swiggy: Monthly recommendations on advertising spends, discounts, etc
- ▮ **Extensive training** for store owners: How to manage your store and drive profitability
